

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

REPORT.

OFFICE OF THE STATE BOARD OF ASSESSORS,
TRENTON, N. J., October 31, 1902.

To the Legislature of New Jersey:

The State Board of Assessors, in compliance with the provisions of the Act entitled "An Act to revise and amend an act for the taxation of railroad and canal property, approved April tenth, one thousand eight hundred and eighty-four," which revision was approved March twenty-seventh, one thousand eight hundred and eighty-eight, herewith submits the report of its proceedings for the year ending October 31, 1902, being its nineteenth annual report.

RAILROADS AND CANALS.

Assessments for the year 1902 have been levied against one hundred and fifteen railroad corporations and one canal company, the particulars and details of which assessments are fully set forth in Schedule B of this report.

NEW COMPANIES ASSESSED.

The corporations added to the assessment for the year 1902 are as follows:

East Jersey Railroad and Terminal Company, Lucaston Railroad Company, and Trenton, Lawrenceville and Princeton Extension Railroad Company; all of the "unclassified roads."

MERGERS AND CONSOLIDATIONS.

During the year 1901 the Camden County Railroad Company, the Ocean City Railroad Company, and the Seacoast Railroad

Company were consolidated with the Atlantic City Railroad Company; and the West Shore and Ontario Terminal Company was absorbed by the West Shore Railroad Company.

The National Docks Railway Company, which has hitherto been assessed among the "Unclassified Roads," has been transferred to the Lehigh Valley Railroad System.

TRACKAGE STATEMENT.

The total length of track constructed in New Jersey at the close of the year 1901 was:

The growth of this portion of the Board's work is worthy of notice. As will be observed by the foregoing statement, the number of *taxable* corporations has steadily increased, from 619 in 1884, to 8,567 in 1902; this latter figure being exclusive of about 300 corporations subject to tax under the provisions of Chapter 195, Laws of 1900 (Municipal Franchise Act), and being also exclusive of the great number of corporations that are exempt from State tax under the law, by reason of being engaged in manufacturing or mining carried on within the State of New Jersey. There are in fact about 15,000 existing corporations carried on the books of this Department, with which it is necessary to communicate each year, and the annual returns from which are carefully scrutinized in order that there may be no evasion of tax, either intentionally or otherwise. In every case where there is an ele-

ment of doubt as to the legitimacy of a claim for exemption from tax, personal investigation is made by a member of the Board, and the merits of the case decided upon the results of that investigation. The correspondence, the calculation of tax, tabulating of returns, and other clerical work necessarily attendant upon the proper handling of this great mass of corporations has grown enormously since the passage of the Act of April 18, 1884, and yet there has never been the provision of one dollar made for carrying the Act into effect; the clerical expenses of the Board being provided for under the Act for the taxation of railroad and canal property, approved April 10, 1884, the theory at that time being that the work of the Board under the Miscellaneous Corporation Tax Act would be so infinitesimal as to require no additional expenditure of public moneys for its administration. While this may have been true at the time of the passage of the Act, conditions have vastly changed since that period, as will more evidently appear from the facts and figures above stated, and the Board feels that the time has now arrived when the Legislature should make adequate financial provision for the proper execution of this very important branch of Departmental work; work which speaks for itself in the annual reports of the State Comptroller and Treasurer. As a result of the assessments levied by this Board, there has been paid into the State Treasury during the fiscal year just ended, on account of Miscellaneous Corporation taxes for 1902, the enormous sum of \$1,791,079.71, and for account of taxes levied in previous years the further sum of \$177,128.66, together amounting to \$1,968,208.37, which is exclusive of the sum of \$569,237.35 received by the Secretary of State and paid into the State Treasury for incorporation and reinstatement fees; the total receipts from Miscellaneous Corporations during the fiscal year being \$2,537,445.72, an increase over last fiscal year of \$346,001.99.

MUNICIPAL FRANCHISE ACT.

The Board will, as it did for the year 1901, make a separate report to the Legislature of its proceedings under the provisions of Chapter 195, Laws of 1900, which report will show the franchise tax levied against the corporations using or occupying the

public streets or highways, and the apportionment of the tax so levied among the various municipalities through which the lines of such corporations extend.

The usual detailed assessments and tabular statements are hereunto appended.
